

BROOK INFANT SCHOOL

TAKE A CLOSER LOOK!

Over the next fortnight at home... 18.9.20

We have started our topic of 'Woodland Wonderland'. Over the next week could you start to collect treasures from the woods. What can you find? Where did you go? Where did the treasure come from? What is its purpose? Could you research something you have found and bring it into school. What fabulous fact can you find? Could you share it with the class?

Did you know?

The World Conker Championships are held every year on the second Sunday in October in Northamptonshire. Contestants are not allowed to use their own conkers.

This week in phonics, we have been recapping on phase 3 and 5. We have begun to assess the children's retention of these phonemes.

Practise reading...

would could should

Practise writing...

Have a go at writing using a stick or a feather. You could make your marks in soil, sand or flour. You could even try dipping your stick in water and mark making on a hard surface such as a paving slab. Can you write your name? Can you write common exception words? Can you practise some of the diagraphs we have been looking at?

Challenge ... you might like to....

- Go for a walk in the woods. What can you see? What can you hear? What can you smell? Do all woods make you feel the same? Do you have a favourite woodland area you enjoy visiting?
- Do you have any trees in your garden or near your home? Can you identify these trees?
- Collect sticks, leaves and fruits from the trees. Can you make something using the things you have found?
